

#### FEATURES AND BENEFITS :

- Vacuum and adapters clean the print heads more efficiently than a standard ultrasonic cleaning device
- Adapter available for every print head on the market including Konica, Xaar 128/126/500, Epson 10,000, Spectra Nova and more
- 5 micron filter prevents particles present in the solvent to go through the print heads
- Time and temperature control system for accurate settings to avoid damaging the print heads while cleaning
- High quality solvent resistant tubes and valves for long life span
- Stainless steel body that prevents rust
- Cleans two heads simultaneously for productivity
- Adjustable valve flush and vacuum to adapt to each print head type
- Easy to use, maintain and repair
- Auto stop & flush features
- Upper & down handles
- 220V-240V power input voltage

#### INSTALLATION INSTRUCTIONS:

Digiprint Supplies Cleansonic PRO is easy to install and use and is delivered together with a unique manual including the recommended settings (temperature, time) for each print head.
